Chapter 1	Embryological basis of the neurocutaneous syndromes <i>Harvey B. Sarnat and Laura Flores-Sarnat</i>	1
Chapter 2	Neurocutaneous diseases in children and adolescents: general clinical pattern <i>Cinzia Galasso, Martina Balestri, Cristina Lalli, Beatrice Penna and Paolo Curatolo</i>	17
Chapter 3	Hypomelanosis of Ito <i>Lorenzo Pavone, Martino Ruggieri, Alberto Spalice, Piero Pavone, Salvatore Savasta and Paola Iannetti</i>	25
Chapter 4	Vascular malformations and neurocutaneous disorders <i>Ignacio Pascual-Castroviejo</i>	33
Chapter 5	Neurocutaneous syndromes and hemimegalencephaly <i>Laura Flores-Sarnat</i>	55
Chapter 6	Two rare neurocutaneous syndromes: Wyburn-Mason and Proteus <i>Renata Rizzo</i>	73
Chapter 7	Diagnostic criteria and evaluation of patients with tuberous sclerosis complex <i>Magda Verdecchia, Roberta Bombardieri and Paolo Curatolo</i>	81
Chapter 8	Epileptic manifestations in tuberous sclerosis <i>Paolo Curatolo, Roberta Bombardieri, Magda Verdecchia and Caterina Cerminara</i>	91
Chapter 9	Tuberous sclerosis complex: phenotype-genotype correlations <i>Sergiusz Józwiak and Katarzyna Kotulska</i>	101
Chapter 10	Subependymal giant cell astrocytomas and tuberous sclerosis <i>Anna Maria Laverda and Sandra Zampieri</i>	111

Chapter 11	Neurosurgical strategies in the management of subependymal giant cell tumors in tuberous sclerosis complex <i>Lorenzo Genitori, Pier Arturo Donati, Flavio Giordano, Federico Mussa, Massimiliano Sanzo, Luigi Sardo, Barbara Spacca, Giovanni Di Pietro, Mohamed Shamsaldin and Giuseppe Oliveri</i>	117
Chapter 12	The neurofibromatoses: clinical manifestations, natural history and management <i>Martino Ruggieri, Agata Polizzi, Maria Paola Pascali, Piero Pavone, Sara Di Netta, Pietro Milone, Annalia Gabriele and Paola Iannetti</i>	139
Chapter 13	Neurofibromatosis type 1: the dermatological option <i>Gianluca Tadini, Alessandra Di Benedetto, Andrea Locatelli, Luisa Lunardon, Elena Bruni and Silvia Marchetti</i>	161
Chapter 14	Clinical molecular genetics of the neurofibromatoses <i>Karen Stephens</i>	169
Chapter 15	Cognitive-behavioural phenotype and neurobiological basis of neurofibromatosis type 1 <i>Daria Riva, Chiara Vago, Alessandra Erbetta and Sara Bulgheroni</i>	179
Chapter 16	Brain tumors in neurofibromatosis type 1 <i>Maria Rosa Balestrini, Sara Malgesini, Maria Grazia Bruzzone and Teresa Misciasci</i>	193
Chapter 17	Novel therapeutic approaches for plexiform neurofibromas in neurofibromatosis type 1 <i>Tena Rosser and Roger J. Packer</i>	207
Chapter 18	Adjuvant therapy for low-grade glioma in neurofibromatosis type 1 <i>Maura Massimino</i>	217
Chapter 19	Diagnostic and follow-up protocols for neurofibromatosis types 1 and 2 <i>Roberto Micheli</i>	229
